Background:

The project is based on education development for youth and citizenship between young people. The goal was to generate in youngsters a full conscience of their citizenship, knowing and exercising their rights and promoting their active participation in society, through concrete actions. Workshops developed by the teacher in charge of the class spoke about topics of Human Rights and Rights of Children, prepared by Oajnu. The workshops also taught planning and implementation of projects about practical issues with regard to the elaboration of the project by its participants.

Mentor Note:

This project has worked with other sponsors and developed with total success. Talking about citizenship to youth will give them the basis towards a feeling of nationality that will make them work for the future of their country and its well-being.
